PROFESSIONAL SUMMARY

Software Engineer with experience specializing in AI-driven solutions, Retrieval-Augmented Generation (RAG), and full-stack web and application development. Proficient in rapid application development (RAD) and integrating multimodal Large Language Models (LLMs) to optimize business processes.

WORK EXPERIENCE

Impact Business Solutions Sdn Bhd (IBS) | *Software Engineer*

October 2025 – Present | Kuching, Sarawak

- Developed a RAG Hybrid system for data ingestion and analysis using smart parsing and open-source multimodal LLMs to reduce manual analysis time.
- Engineered GenAI environment test cases for log monitoring systems serving internal user groups.
- Led the rapid development of a high-quality investor-facing website to improve stakeholder engagement.
- Collaborated with cross-functional teams to build internal recruitment systems and refine system architecture.

Regas Premium Auto | *Sales Representative*

June 2025 – August 2025 | Kuching, Sarawak

- Developed a personalized web application for automated quotation processing to improve operational efficiency.
- Delivered consultations for BMW vehicle selection, enhancing communication and negotiation skills.

TECHNICAL INTERNSHIPS

Sarawak Information Systems Sdn. Bhd. (SAINS) | *Industrial Trainee*

March 2025 – June 2025 | Kuching, Sarawak

- Developed 'EntryBiot', an Android application that improved raw data search efficiency by 300% (from 20 to 80 units/day).
- Built a web scraping tool to automate information retrieval from the company's intranet.
- Assisted in the deployment of water meter IoT devices in rural areas.
